

Workshop on 'Identity, Inclusion and Media Literacy'

Half day workshop on 'Identity, Inclusion and Media Literacy' was organized in collaboration with Standing Together to Enable Peace (STEP) on March 13th, 2019 for B.El.Ed. III and IV year students. The session was facilitated by Ms. Shreya Jani, Founder STEP Trust and Mr. Kh. Samuel Poumai, Facilitator and Trainer in Peace Education. This workshop was organized for students to build upon the existing gender discourse and the role of the media in building their perceptions regarding the same. The workshop covered 5 major core contents of media questioning- who's the creator, what creative techniques are used to grab attention, what values are being highlighted or omitted from a message, how people perceive an advertisement/message and lastly why it was created? It was a hands-on and interactive workshop where many small group tasks were given and presentations were shared by the students.
