

Details of the online teaching course with Regional English Language Office, American Embassy

The Department of Elementary Education collaborated with the Regional English Language Office, American Embassy for their online English language teaching courses designed to develop teaching skills in English language and build effective strategies to use the language for teaching of other content areas. These are named 21 century skills (SKILL) and content language integrated learning (CLIL) respectively. They were rolled out in January 2021 and 57 of our current third and fourth year students participated in the program (22 in SKILLS and 23 in CLIL). The courses are completely free for students and cost of running the program is borne by the embassy.

The course is held on CANVAS platform and includes a mix of synchronous and asynchronous aspects. Students are required to study the posted material which could be a videos, written articles or activity. Each week they have to complete the specified task in the given time frame (a week) and also attend the discussion sessions for an hour twice in a week.

Ms. Neerja Singh and Dr. Aarti Mathur took up the responsibility of performing role of observers for this course. The trainers are qualified professionals from the field and are selected and allocated by the embassy.

Certificates awarded to the students on completion of the course-
