

MATA SUNDRI COLLEGE FOR WOMEN (University of Delhi)

Department of Environmental Studies & Internal Quality Assurance Cell (IQAC)

In collaboration with

The WISE Foundation & Danish Water Forum

Organizes

A Short Term Interdisciplinary Certificate Course on 'Environment and Sustainability'

ABOUT THE COURSE

The program highlights include introduction to SDGs, clean water and sanitation, responsible production and consumption, life below water and life on land. This course curriculum encourages ideas and questions on sustainability and make us realize the grave situation that we are currently in. With the fast depleting flora and fauna, we are facing a threat to our existence. Several scientists predict that life on Earth would be wiped away in a few hundred years. Integrated learning is only possible when learning has many voices and is polyphonic. Each voice counts, as students, academicians and scholars devise their own ways to reach sustainability.

REGISTRATION DETAILS

- Candidates have to register using the Registration link in the brochure to enroll in the course.
- Candidates have to register online before 15th January, 2021.
