

REPORT
On
“PREP WITH PRAYAS”
Organised By
PRAYAS- Placement and Internship Cell

An initiative of Mata Sundri College for women in
Collaboration with T.I.M.E

In a world increasingly shaped by digital experiences, the "PREP WITH PRAYAS" event, organised by T.I.M.E, offered a unique opportunity for offline, in-person learning. This report provides an overview of the event held on the 20th of September 2023, with Mr. Neel Panicker as the speaker.

On the designated day, 46 students gathered in Lab 3, ready to engage in focused learning and preparation. Unlike the virtual landscape, this event provided a direct and tangible experience for students.

The event's primary aim was clear: to empower students with effective preparation techniques for their academic and professional pursuits. Mr. Neel Panicker, representing T.I.M.E, led the event, providing valuable insights and strategies to enhance students' preparedness.

Throughout the event, Mr. Neel Panicker shared tried-and-true methods and approaches for successful preparation. The in-person format enabled immediate interaction, allowing students to seek clarification and guidance on their specific areas of interest.

The event, spanning from 1:30 pm to 3:30 pm, ensured that participants had ample time to immerse themselves in the learning process. Hands-on activities and practical demonstrations further enriched the learning experience.

The event's offline nature made it highly engaging and conducive to active learning. Students had the opportunity to apply what they learned in real-time and receive personalised feedback. By the end of the event, they had a more comprehensive understanding of effective preparation strategies.

In conclusion, "PREP WITH PRAYAS" was a valuable offline learning opportunity that provided students with practical tools for academic and professional success. Unlike virtual events, this in-person gathering allowed for direct interaction and hands-on learning. The event served as a stepping stone for students as they continue their academic and career journeys.

We extend our appreciation to Mr. Neel Panicker for his guidance and expertise in effective preparation, and to T.I.M.E for organizing this enriching event. Such offline experiences are instrumental in enhancing students' readiness for academic and professional challenges, ensuring that they are well-equipped for success.
