PRAYAS- Placement and Internship Cell

*An initiative of **Mata Sundri College for women** in
Collaboration with **Teach for India.***

In today's competitive world, the right guide is crucial for success. With this notion, on 28th July 2023, **The Placement and Internship Cell, Mata Sundri College for Women** in collaboration with **Teach for India**, hosted an interactive pre-placement talk by the prestigious members, **Mr. Soumyadeep**. Ms. Lavanya welcomed the speaker for the session.

The engaging pre-placement talk was conducted by a representative from Teach for India, an Ed-tech startup with a strong commitment to bridging the educational gap and improving literacy levels in underdeveloped areas and families below the poverty line. The speaker passionately shared insights into the company's vision and the transformative impact they aim to create in the education sector. He shared how the company strives to provide quality education to students from economically challenged backgrounds, particularly in rural areas. By focusing on underprivileged communities, Teach for India aims to ensure that every child receives an excellent education, regardless of their socio-economic background.

Teach for India is offering a highly sought-after fellowship program for one year. The program provides recent graduates and young professionals with an opportunity to make a meaningful impact in

students' lives. Through teaching and leadership experiences, fellows actively contribute to building a stronger educational foundation for the nation's future. The speaker detailed the rigorous selection process for the fellowship program, which comprises three stages. The first stage involves an online test to assess candidates' knowledge and suitability for the program. Successful candidates move on to the second stage, which is an interview conducted over a call to gauge their passion for education and commitment to the cause. In the final stage, candidates undergo an assessment test to evaluate their teaching abilities and adaptability to challenging situations. Upon qualifying the selection process, Teach for India allocates fellows to locations based on their preferences and the needs of the respective areas.

The pre-placement talk was an eye-opening experience for the students. The session witnessed enthusiastic participation and all the queries were answered by the speaker. The Placement and Internship Cell expressed their gratitude to Teach for India for their valuable insights and dedication to transforming education in India.
