

Visit to Yamuna Biodiversity Park

The field visit was organized for B.El.Ed. 3rd year students under their Pedagogy of EVS practicum component on 05.03.2019. Its objective was to make students understand pedagogical significance of field visits and nature trails in Environmental studies. Students observed different conservatories, wetlands, varieties of bird species including migratory birds, green houses, net houses, poly houses and other native species of plants of Yamuna basin. Visit was coordinated by Ms. Divya Sharma.
