

Logo Making Competition and Exhibition

The Department of Elementary Education as a part of its Decennial Anniversary Celebrations organized a Logo Making competition on October 10, 2016 and an exhibition displaying the entries by students for the competition on October 18, 2016. These logos symbolized and summarized students' perceptions, understanding and creative expression of the Departmental ethos, academic rigor and its spirit that mark its ten year journey. The students participated in large numbers from each year and gave in creative and thoughtful entries.
