

## **Industrial Visit to SAP Labs India in Collaboration with Edunet India.**

### **(Under the auspices of the Tech Saksham Programme)**

Experiencing the corporate realm firsthand is paramount for professional growth. In partnership with Edunet, students from Mata Sundri College for Women embarked on a visit to SAP Labs, Gurgaon, on **September 15, 2022**. This insightful excursion catered to 26 third-year students pursuing B.Sc. (Hons) in Computer Science. Following the completion of prerequisites such as vaccination and consent forms, students received their visitor cards and proceeded to the scheduled session at the lab.

The day commenced with an engaging introduction led by the HR and technical teams of SAP Labs. Activities began with an ice-breaking game, followed by sessions on crafting resumes and developing LinkedIn profiles. Subsequently, mock interviews were scheduled, guiding students through the nuances of interview preparation, including technical rounds, group discussions, and HR interviews. This practical insight delighted students, providing clarity on interview dynamics and anticipated questions from employers.

During lunchtime, students mingled with SAP Labs' regular employees at the common mess, gaining firsthand experience of the company's culture. Through interactive sessions focused on finance, time management, emerging technologies, corporate etiquette, and employer expectations, students absorbed valuable insights with clarity and efficiency.

The day concluded with a group photograph, leaving students enthralled by the enriching experience.

The mentors exhibited exceptional patience and cooperation in addressing the students' inquiries, imparting invaluable advice along the way. This eye-opening experience provided students with a glimpse into the intricacies of professional life, fostering a deeper understanding of corporate dynamics and the requisite work ethic. It sparked a newfound desire among students to immerse themselves in the corporate world, with many expressing eagerness to participate in similar excursions in the future.
