

REPORT On
Seminar
“Generative AI”
Organized By
PRAYAS- Placement and Internship Cell

*An initiative of Mata Sundri College for Women in
Collaboration with NIIT*

On 5th October 2023, a meticulously organized seminar on **Generative AI** was carried out with great success through the collaboration between **NIIT** and **Prayas- the placement and internship cell of Mata Sundri College for Women**. The seminar was graced by the presence of Mr. Udai Singh, an esteemed speaker who enlightened the attendees on the intriguing realm of artificial intelligence.

In this era of rapid advancements, where innovation and creativity are the cornerstones of progress, Mr. Singh's role as a harbinger of transformative ideas cannot be overstated. Armed with a profound understanding of the intricacies of Generative AI, he has tirelessly strived to unravel the enigma of intelligent machines and unlock their untapped potential. His pioneering work has not only pushed the boundaries of what we thought possible but has also paved the way for a future teeming with limitless possibilities.

NIIT is a global learning solutions company that offers a wide range of training programs and educational services. Founded in 1981, NIIT has become a leading provider of IT and business skills training, digital transformation solutions, and talent development services. The company has a strong presence in over 40 countries and has trained millions of professionals across various industries. NIIT's

training programs cover areas such as software development, data analytics, cybersecurity, digital marketing, and more. With its innovative learning methods and industry-focused curriculum, NIIT continues to empower individuals and organizations with the skills and knowledge needed to thrive in the digital age.

The event was attended by a commendable number of **71** participants. The said event was held offline on 1st September 2023 from **1:30 pm to 2:30 pm**.

The seminar delved into the intriguing world of Generative AI, a field that has witnessed exponential growth in recent years. Mr. Udai Singh, with his articulate and captivating presentation, painted a vivid picture of the immense potential and applications of Generative AI. He eloquently discussed how this technology is revolutionizing industries such as healthcare, finance, and entertainment, leaving the audience in awe. His ability to simplify complex concepts and present them in a relatable manner was a testament to his expertise and passion.

During the seminar, Mr. Udai Singh delved into the intricacies of ChatGPT, shedding light on its immense potential as well as its limitations. He emphasized the importance of overcoming these limitations and shared insightful strategies to maximize the capabilities of this remarkable technology. Moreover, to enhance the participants' understanding, he provided a live demonstration of the usage of ChatGPT, enabling them to witness its functionalities firsthand.

Bart, another prominent AI model, also garnered attention during the seminar. The speaker expounded upon the various options available under its free version, ensuring that the participants were well-informed about the possibilities and constraints of this model. Returning to the topic of ChatGPT, Mr. Udai Singh proceeded to explore its applications for the student community. He ingeniously

modified prompts with each example, elucidating how this technology can be tailored to cater to the specific needs and queries faced by students.

The seminar reached its pinnacle as Mr. Singh introduced the attendees to the captivating world of Bit Journey. This intriguing concept captivated the audience's interest, immersing them in an interactive session where ideas and knowledge were exchanged freely. The session concluded with an air of enthusiasm and inspiration, leaving the participants brimming with newfound knowledge and a deeper understanding of Generative AI.

The faculty members present from the Placement Cell were a testament to the importance of this seminar, Dr. S. Kalpana Devi, the Convener of the Placement Cell, Ms. Ashema Hasti, the Co-Convener, Ms. Jasmeet Kaur and Ms. Ishleen Rekhi, a respected faculty member of Mata Sundri College for Women.

Overall, the seminar on Generative AI conducted by NIIT in collaboration with Prayas- the placement and internship cell of Mata Sundri College for Women, proved to be an invaluable opportunity for the attendees. With Mr. Udai Singh's expert guidance, the participants were empowered to comprehend and harness the potential of technologies like ChatGPT and Bart. This event not only broadened their horizons but also fostered a spirit of curiosity and innovation that will undoubtedly shape their journey in the world of artificial intelligence.
