International NFT Day

The event was conducted by Department of Computer Science Mata Sundri College, in collaboration with GirlScript Foundation.

Date - 20th September, 2023

Time - 1:30pm - 3:30pm

Number of Students - 100

About NFT Day -

September 20th is the day that NFTs were born, and is why we're celebrating. On this day in

2017 Dapper Labs CTO, Dete Shirley, published ERC-721, which is the standard from which

NFTs are built. In this proposal, the term Non-Fungible Token was first coined. Since then,

NFTs have taken on a life of their own, featuring incredible sports moments, breathtaking art,

passionate communities, and innovative ideas.

The main objective of this event was to provide an opportunity to all participants to learn about NFTs. Non-fungible tokens (NFTs) are digital assets that offer unique cryptographic proof of digital asset ownership. They are cryptographic tokens that use blockchain technology to verify their ownership and cannot be replicated and are used to represent digital and real-world items such as artwork and real estate, allowing these assets to be traded. Physical commodities such as art, music, etc. can be represented by a digital token online. This creates an immutable record for those works. It also provides transparency throughout the entire purchase process, eliminating fraud and protecting the consumer.

Speaker Name - Radhika Gupta , Designation – Associate, Company Name - The Chain Project

Radhika Gupta is a tech-lawyer with a buidler mentality. She is an Associate at The Chain Project (TCP) and has been a legal researcher in the Web3 space for over a year. She started her career in law assisting Web3 businesses with their Legal and Compliance issues by curating solutions specific to the offering and services for the frontier tech companies. From helping them set-up to operational risk mitigation. She is an active part of the Web3 ecosystem and communities, contributing to the industry growth through means beyond law like her podcast 'WHELM Web3' i.e. Where Law Meets Web3.

It was a very informative session for the students. Guest of Honour was Dr. S. Kalpana Devi, Department of Commerce, MSCW.

The Converner and Co-Convener of the event were Ms Ashema Hasti and Ms Harguneet Kaur from the Department of Computer Science.
