

## Remedial English Classes

The Department of English conducted Remedial English classes for students of BA programme in **August-September 2019**. The course was designed to help the students in improving their basic English skills. Ms. Praveshika Mishra and Ms. Shweta Duseja were the course coordinators.

A total of seventy five students registered for the course. Three batches of twenty five students each were formed. The course ran for three weeks. Each class was divided into two sessions where the first hour was utilised to explain the concepts and half an hour was given to worksheets on the topics covered. The course was designed in such a way that it incorporated all four aspects that aid in learning a language: reading, listening, speaking and writing. A wide range of topics were covered.

Overall, it was a fruitful experience for the students and the teachers alike.
