

DATA SCIENCE SEMINAR

On 20th March 2023, STATISTIKA, The Department of Statistics and UDDHAM, The Entrepreneurship cell of Mata Sundri College for Women, organized an appreciative seminar on the topic “**UNLOCKING THE POWER OF DATA SCIENCE**”, in which 90+ students participated.

The event started at noon with the welcome address by hosts- Vrinda Ahuja from Statistics department and Khushi Marwah from the Entrepreneurship cell. Then Ms. Prabhsharan Kaur felicitated the guest Speaker “**Ms. AADYA TOMAR**”, by presenting a beautiful pot. Aadya Tomar is a seasoned data scientist, entrepreneur, and educator. She has worked with a diverse range of clients and helped them solve complex business problems. Also, She is currently pursuing PGP in data science and business analytics from the University of Texas at Austin.

The students were espoused by Ms. ADHYA TOMAR. She acquainted them with the objectives and goals of the lecture. She reflected on her profound knowledge of data science. The session informed students about what data science is; who should be an ideal candidate pursuing it; the roadmap to becoming a data scientist; about job opportunities such as data analytics, data scientist, machine learning engineering, business intelligence analysis, data engineer; some applications of data science in various fields and a small case study related to data science itself.

As a result, students connected and focused on momentous motivating lectures about further knowledge about data science. Students attentively listened and asked all of their questions related to job opportunities in data science, and how to become a data scientist, and the speaker shared her perspective regarding the same. She inspires and educates the students by sharing her personal stories and struggles as well which lead her to the path of success.

An interactive session ignited the inquisitiveness of participants. The informative lecture culminated at 2 pm with a vote of thanks proposed by the hosts.
