

"THE GREATEST VALUE OF A PICTURE IS WHEN IT FORCES US TO NOTICE WHAT WE NEVER EXPECTED TO SEE. "

On 13 October 2023, The Department of Statistics and the Department of Computer Science, Mata Sundri College for Women held an Interdisciplinary hands-on workshop focusing on the foundation for creating engaging infographics.

The event started at 1:30 PM with the felicitation of the guest Speaker, Mrs Sheetal Singh, an Assistant Professor from the Department of Computer Science at Ramanujan College, who guided the audience about the comprehensive exploration of data visualisation and presentation techniques.

In attendance at the event was the director of IQAC, Lokesh sir, who gave an encouraging speech to the students about how data visualisation is much needed these days due to the fast-paced nature of the modern world and the necessity to present data comprehensibly.

During the workshop, students gained hands-on experience with powerful Data visualisation tools such as Piktochart and Canva, this enabled the attendees to learn the art of creating engaging and informative infographics which not only deliver information to the targeted audience but can also draw and hold the viewer's attention.

The students came to know about various aspects of designing and creating easy-to-communicate and easy-to-understand graphic or visual representations of a large amount of complex quantitative and qualitative data and information with the help of static, dynamic or interactive visual items.

The interactive Session ignited the inquisitiveness of all participants. It culminated at 3:30 PM with a vote of thanks and a thunderous round of applause for Mrs Sheetal Singh, who reflected her profound knowledge on the topic.

The students' responses and excellent feedback only prove how much such sessions are needed and how the students learned several ways to effectively represent data as infographics in such a short amount of time. Considering the efficient application of Data visualisation skills the attendees demonstrated, it is safe to say that the event was a great success.
