

## DEPARTMENT OF EVS

### DOCUMENTARY SCREENING - THE ELEPHANT WHISPERERS (OSCAR AWARD WINNING)

Report Prepared for :- **Mata Sundri College for Women, University of Delhi**

Date:- 07 June,2023

Time:- 1:00 pm

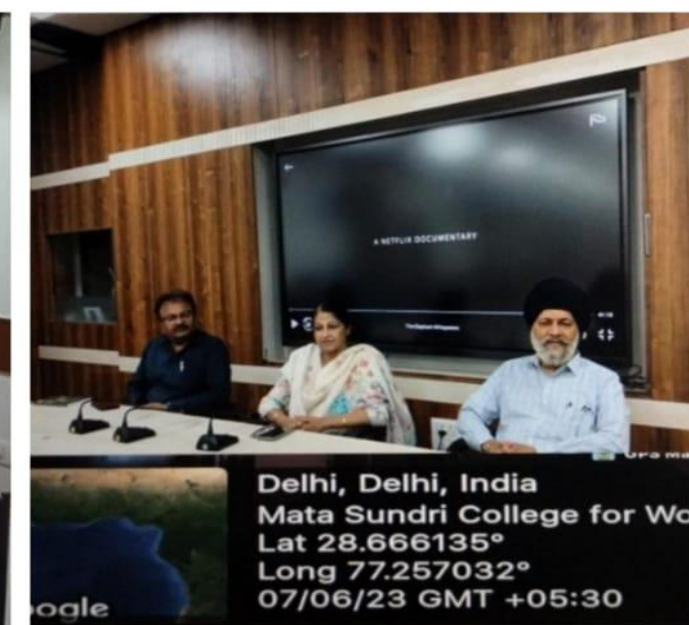

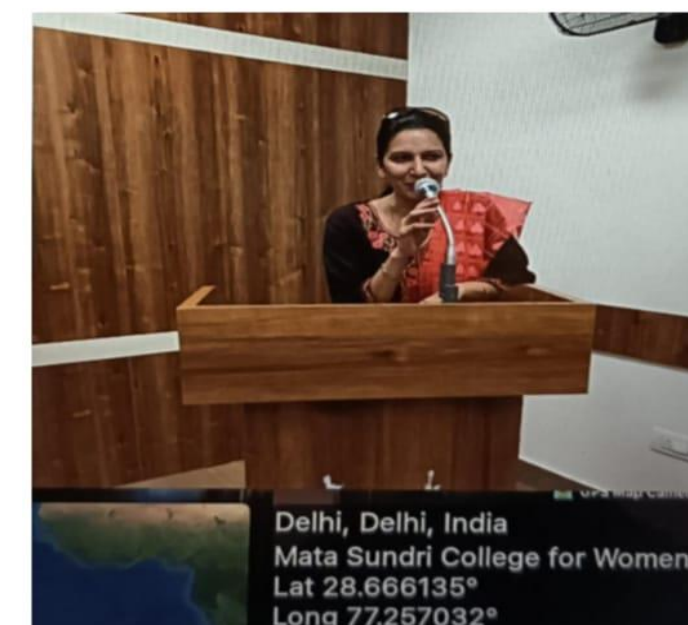

Venue:- Mata Gujri Hall

Convenor:- Dr.Kavita Singh

Coodinator:- Prof.Pooja Jaggi

Principal:- Prof.Harpreet Kaur

Department of EVS organized Documentary Screening (The Elephant Whisperers-Oscar Award Winning) on the occasion of Environment Day Celebration on 7 June 2023 at 1:00 pm in Mata Gujri Hall, for the students. Total number of

participants were 50.

The event began at 1:00 pm with the introductory speech of Dr. Kavita Singh. After that students of EVS Department screened the documentary. The documentary is about a Tamil couple, Bellie and Bomman, who fosters orphaned elephants in the Mudumalai Tiger Reserve of Tamil Nadu. The documentary takes the all members who were present there on a mesmerising visual safari as the trees changed colour, the river gets replenished, and later in the summer, the forests burn in the heat. Belonging to the Kattunayakan tribe, Bomman and Bellie's life revolve around this forest. The documentary depict the relationship and the bond between man and animal and it also expresses love and devotion in its purest form.

The motive of screening the documentary was to aware the students about the biodiversity conservation. Also to tell the students about the importance of tribal and village culture in India as these people are the genuine caretakers of nature and animals, unlike urban dwellers like us, who have already lost touch with the environment. The motive is to address the students that there is no solution to

saving nature if there is no awakening of environmental consciousness amongst the public. To stressed upon the conservation of endangered species like- Bonnet Macaque( a specie of Langur, shown in movie) is only found in South India. Basically, Department of EVS wants to encourage the students to preserve the environment, forest and wildlife and to value the nature. Use the resources provided by nature judiciously and also wants to gave a message that human and animals need each other and can survive in harmony.

Thank you.
