Chief Student Coordinator :- Riya Jain

Student Coordinator :- Megha

Department of Environmental Studies presented a movie screening :- Kadvi Hawa - a concern on climate change on 10 Nov, 2023 at 1:30 pm in Mata Gujri Hall.

The convenor for the event was Dr. Kavita Singh. The event started with the permission of our Coordinator (EVS) Prof. Pooja Jaggi. We received 30 registration for the event , and around 25 students attended it.

The chief student coordinator of the Department of Environmental Studies - Riya Jain welcomed all the attendees and gave a glimpse of the movie. After then around 1:40 pm, student coordinator of department of Environmental Studies screened the movie. The time duration of the movie was 1 hour 39 m.

The movie Kadvi Hawa inspired by the true events from the drought prone Bundelkhand region. It throws light on state of farmers and consequences faced by them due to climatic changes. It also told us that due to climate change, farmers' suicide in drought and flood hit areas of our country. The plot revolves around a blind farmer who makes a part with a debt recovery agent to recover his son from committing suicide after he fails to repay his loan.

Climate change is a change in weather. The shift in weather conditions due to human and environmental factors, we are experiencing that temperatures rising at substantial rates on earth, and because of this icecaps are melting and global warming become a major concern between us.

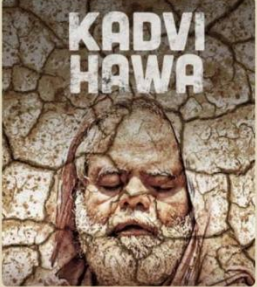

The motive of screening the movie was to aware all the attendees about the climate change and how it can be a big threat to our environment. The objective was to spread awareness among all the attendees about climate change and mitigation measures of it, so that they use the natural resources judiciously, stop overexploiting of it and make our planet and environment better, cleaner and greener for ourselves and future generation.

Our honourable Principal ma'am Prof. Harpreet Kaur also accompanied us and address us all that we youth are the biggest contributor of our environment and our small steps and contribution towards nature make our environment free from the problems like climate change, drought , flood, pollution ,etc.

After the screening, Department of Environmental Studies also announced the result of the competitions (quiz, poster and debate competition) organised on 6 Nov,2023. Our hon'ble Judges Dr. Ishleen Kaur Lamba (Quiz & Poster), Dr. Veenakshi Sharma (Poster) and Ms. Gurpreet Kaur (Debate) felicitated all the winners .

Feedback-attendance form was circulated that was supposed to be filled by all the attendees . The feedback was positive, stating how the movie was interesting and spread awareness among all. The event was interesting and educational.
