

GREEN-DIWALI" CAMPAIGN

The Department of Environmental Studies organized an awareness campaign on “**Green-Diwali**” for the college students on 24 October 2019. The main objective of the campaign was to spread awareness amongst the students to create a better environment by reducing air and noise pollution during Diwali. This Diwali they were pledged with the motto of lighting up Diyas and not fireworks or fire, instead of opting for plastic diyas or candles they accepted clay diyas.

Learning outcomes:

Students learnt about refraining or limiting the use of crackers as the most crucial and the first step towards celebrating Green Diwali and how by limiting the plastic decorative items and switching to bio-based adornment pieces, the carbon footprint can be reduced.
