Her research has also been published as a book by International Publisher, Lambert Academic Publishing (Germany). Her work has been appreciated at several National and International Conferences for which she also received best research paper award.

ABOUT THE BOOK

Students of various courses like Law, Commerce, Business and Management must study Indian Companies Act, 2013 as part of their curriculum and to prepare themselves appropriately for the professional world. The typical language citing the intricate provisions in the bare act makes this subject appear difficult. The sole purpose of bringing out this book is to present the provisions of the Companies Act in lucid language and bulleted format so that the text is easier to comprehend and absorb. We have made every possible effort to improve the comprehension of the act and its provisions. The key points of the book are:

- Presentation of the chapter content, at several locations, is in bulleted format instead of long paragraphs.
- The intricate provisions have been explained with the help of illustrations and relevant case laws. These case laws have been highlighted in the box format for easy differentiation.
- A special effort has been made to include amendments up till July, 2020.
- Relevant flow-charts and diagrams have been included summarizing the provisions in a more eloquent manner.
- Past year examination questions have been provided at the end of each chapter for quick reference.
- The content of the book is in sync with curriculum of top universities of India.
- Syllabus of Company law paper as per CBCS is also attached in the book for ready reference.
