Minutes of IQAC meetings with TIC October 5.2020

Minutes of the Internal Quality Assurance Cell (IQAC) meeting with Departmental Incharges held on October 5, 2020.

A meeting of the IQAC with Departmental In-charges was held on October 5, 2020 via google meet. The following business was transacted:

1. The Principal informed the In-charges that the college was in the process of applying for the second cycle of NAAC accreditation. The IQAC and the Steering Committee had begun data collection for the compilation of the Self Study Report (SSR). She requested the TICs to furnish all the department related data to the IQAC as and when required.
2. The IQAC Coordinator, Dr. Lokesh Kumar Gupta informed the house that the college was planning to begin short-term courses of 30 hours duration for skill enhancement of students. He requested the TICs to plan these courses either in collaboration with other agencies or independently.
3. Dr. Gupta further stated that the IQAC was planning a Research Mentoring and a Peer Mentoring programme for students. The Research Mentoring programme was aimed at promoting research culture at the undergraduate level and could be interdisciplinary in nature with students from all disciplines participating. The Peer Mentoring programme had been envisaged as a unique endeavour where seniors would mentor their juniors. TICs were asked to encourage students to participate in both the programmes. They were also asked to provide a list of names of students participating in both the programmes to the IQAC by October 25, 2020.
4. Dr. Gupta also informed the House that a Research Board for promotion of faculty research and an Entrepreneurship Cell research to foster entrepreneurial skills among students would be constituted under the aegis of IQAC.
5. It was decided that departments would appoint one member as the NAAC contact person, who would coordinate with IQAC/Steering Committee on all NAAC related matters.
6. It was also decided that Data Templates would be circulated among the in charges to fill in data related to NAAC.

The meeting came to an end with a vote of thanks to the chair.

PYTHON MENTORSHIP PROGRAMME

A week-long mentorship program on "Basic overview of Python (with a case study)" was conducted under the mentorship program organized by the Department of Statistics of Mata Sundri College for Women, Delhi University from November 5, 2021, to November 12, 2021, for students of the second year of BSc (Hons) Statistics. The whole session was conducted under the guidance of our esteemed principal Prof.(Dr.) Harpreet Kaur, Teacher in charge Ms. Prabhsharan Kaur, and the program coordinator Dr. Kalpana Yadav.

Nishita Gupta and Tanisha Gupta were the mentors of the session. It was a 14-hour program in which 2 sessions of 2 hours each were held regularly. The program was undertaken by 21 students. Python is one of the most vital coding languages which is experiencing incredible growth and exponential rise year by year. It is indeed very popular among developers of the present generation. From downloading python to understanding the various types and structures of data, everything was thoroughly explained in the workshop. Various operators and different methods functions in Python were clearly defined throughout the course of the session. An assignment was given for assessing the understanding of the students. Quizzes were conducted at various times of the session so that the doubts of the students get cleared at the correct time. All the assignments were duly submitted by the students. All the students showed great interest throughout the session. The program proved to be highly appreciated by both the mentees and the teachers.

The screenshot displays a Google Meet interface. The main content is a Jupyter Notebook titled "DAY-1 (INTRODUCTION) (MENTORSHIP PROGRAM)". The notebook content includes:

- Identifiers**
Identifiers are the user defined names of the functions, variables, class or any other objects.
- Rules of creating an Identifier:**
 - An Identifier is a mix of lowercase and Uppercase alphabets and numbers (0-9 A-Z).
 - Identifier cannot start with a number or any other special characters. An Identifier cannot have any special character like @, \$, etc except underscore.
 - Keywords cannot be used as an Identifier.
- Examples of some valid Identifiers:** Her Step_up_123_analytics
- Examples of some invalid Identifiers:** \$sample @yes labc
- Identifiers are case sensitive**
- Whether an Identifier is valid or not can be identified by two ways:**
 - (a) Using keyword (keyword) function available in keyword library. This function returns whether a string is a keyword or not.
 - (b) Using str.isidentifier() function. This function returns whether a string according to the predefined rules for Identifiers or not.

Below the text, there are two code cells in the notebook:

```
In [ ]: str.isidentifier('9cu')
```

```
In [ ]: str.isidentifier('Star_123_analyt')
```

The right side of the screen shows a grid of participants with their initials in colored circles. The bottom of the screen shows the Windows taskbar with the search bar and system tray.

NOTICE FOR STUDENTS

All students are hereby informed that our college library has Online Public Access Catalogue (OPAC) to search books in the books database. Here you can easily find the availability of required books in the library.

We are planning to conduct OPAC Literacy Program in this concern. Students are welcome to come in class groups and attend the program. Meet the librarian and schedule your OPAC Literacy Program.
