Report on TechFest Cybernova

The Department of Computer Science, **Mata Sundri College for Women, University of Delhi**, under the banner **Cybernauts**, organized three engaging events as part of **CYBERNOVA** on **16 April 2026**.

The first event, **"Tech-Debate: Gen-AI—Threat to Human Creativity,"** focused on the growing influence of generative AI and encouraged participants to debate whether AI poses a threat to human creativity. The event began at **10:00 a.m.** at the **Mata Sahib Kaur Auditorium**.

The second event, **"Tech-Poster: AI vs Human Intelligence—Who Wins?"**, provided participants with an opportunity to explore and creatively present their perspectives on artificial intelligence and human intelligence. It was scheduled from **10:00 a.m. onwards in Lab 5**.

The third event, **"Find the Phish,"** centered on **cybersecurity and phishing awareness**, challenging participants to identify and understand phishing threats. It was held from **2:00 p.m. onwards** at the **Mata Sahib Kaur Auditorium**.

Together, these three events successfully combined **artificial intelligence, creativity, critical thinking, and cybersecurity awareness**, giving students an interactive platform to develop both technical knowledge and innovative thinking. The events also reflected Cybernauts' commitment to promoting technological awareness and participation among students.
