

## **Short Report on Data Analytics Programme**

The **PRAYAS – Placement and Internship Cell, Mata Sundri College for Women, University of Delhi**, in collaboration with **Cybernauts, Statistika, and Asymptote**, organized a **Data Analytics Programme** in association with **DataCliq** from **18<sup>th</sup> July to 18<sup>th</sup> August 2026**.

The programme focused on helping students bridge the gap between classroom learning and corporate requirements by developing practical, industry-relevant skills. Participants were introduced to **Microsoft Excel, Power BI, Python, data analysis, visualization, and live projects**. The programme also emphasized expert-led and hands-on learning, along with **resume building, interview preparation, placement assistance, and internship opportunities**.

Students learned Power BI fundamentals, data visualization, DAX, advanced dashboard design, and completed a live dashboard project. The Excel modules covered data cleaning, lookup functions, Power Pivot, reporting, analysis, and a real-world project.

Python sessions introduced programming fundamentals, NumPy, Pandas, data cleaning, exploratory data analysis, visualization, and business insights. The programme concluded with **resume optimization, mock interviews, and student project presentations**, helping participants connect technical learning with career readiness.

Open to students from all years and courses, the initiative aimed to equip participants with high-demand skills and prepare them for future career opportunities in data analytics.
