

## **OFFLINE EVENTS- 20th SEPTEMBER, 2021**

Parivartan, the NSS unit of Mata Sundri College for Women organized various offline events under swachhata pakhwada on 20th September 2021. It was a offline event in which volunteers came to college premises and took a pledge to keep their surroundings clean.

They also did activities like Plantation drive and cleanliness drive in-around campus. 24 Volunteers of Parivartan participated in this event. Cleanliness and Hygiene are not only limited to our own homes, but we need to make sure to keep our surroundings clean wherever we go (parks, tourist attractions, and public toilets).

Clean India Mission focuses on the eradication of open defecation all over the country and efforts have been made for the same since its commencement on 2nd October, 2014. As per the statistics published by the Government of India on Swachh Bharat Mission more than 10 crore toilets have been built during the mission across the country.

36 Indian states have been declared defecation free and hence the mission has largely improved the lifestyle of a common Indian man. Our government is doing every bit to make sure that our country becomes cleaner and more hygienic by every passing day, and as responsible citizens, it is our duty to make sure that we do our bit to help in this noble mission.

The cleanliness in public places not only improves the standard of living of our countrymen but it also gives a very positive image about India to the tourist that visit us from foreign countries.

Mahatma Gandhi had a dream of a cleaner and healthier India and he emphasized it time and again during his lifetime. It is a step towards fulfilling the dream of green and clean India and citizens must contribute towards it.
