A short-term course was organised by the new established entrepreneurship cell of the college. The course was organised in collaboration with the department of commerce and focused on entrepreneurial idea development and skill enhancement. The course duration was ten days from 5th February 2021 to 15th February 2021. The sole objective of the event was to enlighten students by providing insight of entrepreneurship and pave a path for students to be a job provider rather than being a job seeker. To make this event splendid along with being informative, fun activities were organised and cash prizes were rewarded to the winners in return. Experts from various fields served as resource persons for this course. Ninety-one students from various Universities across India had participated. The Entrepreneurship cell looks forward to more such courses.
