

SANGINI SAHELI

WEBINAR ON CHILD EDUCATION

Parivartan, the NSS unit of Mata Sundri College for Women is in collaboration with Sangini Saheli. 'Sangini Saheli' by Priyal Bhardwaj is a women welfare initiative where we are actively working to empower, uplift and connect women and children by opening access, creating opportunities and equal avenues.

In the webinar about 'CHILD EDUCATION' they explained the aim to educate and give them guidance about opportunities for livelihood, making them self-sufficient and helping them come out of their situation. Sangini Saheli organization believes that providing equal opportunity for overall growth and development to all children, women, disabled and less-privileged. Millions of children in our country lack basic necessities of life like food and proper shelter, let alone hygienic living conditions and education. Education is the social institution through which society provides its members with important knowledge, including basic facts, job skills, and cultural norms values. One of the most important benefits of education is that it improves personal lives and helps the society to run smoothly. Education exposes children to new ideas and helps them to make a path to a career. Education also builds the overall personality of a child and makes him/her aware of their surroundings. Education for children eradicates social practices like child labour and also boosts a nation's economy and growth. This will also help that child in his/her individual growth and development.

The event was concluded after our Guest Speaker explained these points elaborately to the volunteers. The event was on 27th of September, 2021 via ZOOM. Our 29 volunteers participated in this event and understood about the topic.
