

## **SOLIDITY WEEK**

### **SKIT**

Parivartan, the NSS unit of Mata Sundri College for Women organized a "SKIT" under solidarity week. It was conducted on 1st July at 5pm on google meet. "Great acts are made up of small deeds." The Skit was about a girl who was trapped in drug abuse. Drugs can have short-term and long-term effects. These effects can be physical and psychological, and can include dependency. You may act differently, feel differently and think differently if you have taken drugs. One may struggle to control their actions and thoughts. It is important to remember that there is no safe level of drug use. 29 Volunteers participated in this event. One volunteer shared a story about someone being in depression due to drugs. Many volunteers voiced out their views on drug abuse.
