

Agenda: Smooth functioning of the Department

A meeting of the Department of Political Science was held with the Principal on 7/10/26. Garima raised the issue of allocation of student for Academic Project. The excel sheet about the allocation of student was shared in the department group.

Principal Ma'am shared that there should be a mutual respect for each other. There should be an understanding in the department. Whether it is time-table or any other issue. It is not possible to satisfy each and every faculty member. Jaspriya raised the issue of time-table and distribution of topic on the <sup>basis of</sup> specialisation. When there is a time constraint, decision can be taken.
