

Report on the Inaugural Ceremony of the Workshop

on

Advanced Excel with Power BI

The Vocational Center of Mata Sundri College for Women, University of Delhi, in collaboration with PRAYAS – the Placement and Internship Cell, and Anudip Foundation, inaugurated a skill-based training programme on “Advanced Excel with Power BI.” The initiative aims to equip students with industry-relevant technical skills through practical, hands-on learning. The 45-hour hybrid programme covers advanced Excel tools, including Pivot Tables, Power Query, What-If Analysis, Forecasting Tools, and Power BI, along with Copilot. The programme also focuses on developing 21st-century and soft skills, offering EY certification and placement support to enhance students’ employability. The initiative reflects the college’s commitment to bridging the gap between academic learning and industry requirements.

The inaugural ceremony was held on 19th August 2026, from 1.30pm to 2.30pm in Bebe Nanki Hall.

It was attended by 80 students from various departments of Mata Sundri College for Women.
